

**OCEANS '09
IEEE Bremen**

11-14 May
Bremen
Germany

Join us for the first IEEE OCEANS conference and exhibition in Germany, an international forum covering a broad spectrum of topics in the fields of ocean science and technology.

Call for Papers

OCEANS '09 IEEE Bremen

Balancing technology with future needs

May 11–14, 2009

Bremen, Germany

www.OCEANS09IEEE Bremen.org

The conference program consists of:

- Regular paper presentations
- Tutorials
- Student poster competition

Submissions are solicited in the following fields:

Special Topics for the OCEANS '09 Bremen

- Ecology versus economy – finding the right balance
- Integrated coastal observing strategies
- Global ocean observatory initiatives
- The ocean component for earth observation programs (GEOSS Global Earth Observation System of the Systems)
- Renewable Energy – offshore wind, solar and tide energy conversion
- Advanced technologies for hydrocarbon and mineral resource exploration
- Estuary systems and Wadden areas in the North and Baltic Sea
- Marine Aquaculture
- Maritime security and surveillance

General OCEANS Topics

- Underwater acoustics and associated processing
- Ocean observing systems
- Remote sensing of atmosphere/ocean interface
- Naval and offshore technology
- Information technology and data management
- Marine environment and pollution monitoring
- Non acoustic instruments and associated processing
- Marine policy and ocean management
- Selected topics of marine research (Hydrothermal vents, Fluid seepage, Bioacoustics – Whale research)

Web site open for abstract submission:

November 2008

Deadline for all submissions:

January 11th 2009

Deadline for full paper:

March 26th 2009

Interested in presenting a paper, a tutorial or a student poster?

For further details and abstract submission please visit our OCEANS web site:
