

Oceans '09 IEEE Bremen - Balancing Technology with Future Needs

Location: Bremen, Germany

Event Website: <http://www.oceans09ieeebremen.org/index.cfm>

Start Date: 11/05/2009 **End Date:** 14/05/2009

Background: OCEANS '09 addresses scientists, engineers and representatives from authorities and companies, who are active in marine research and technological development. The main topics cover new methods and technologies in ocean exploration. A number of lectures, organized as special topic sessions, will provide an overview of the latest technological and scientific approaches in ocean research, including recent developments in basic research, and utilization of natural resources. This is supplemented by an international marine technology exhibition, where leading companies present their products and services in the Bremen Congress and Exhibition Centre.

NURC 50th Anniversary Session: In this context, the NATO Undersea Research Centre (formerly SACLANTCEN) of La Spezia, on the occasion of its 50th Anniversary, has been invited to sponsor a Special Session.

Topic of the Session: Topic of the session will be:

“Meeting new engineering and scientific challenges from the successes of the past”

Former Centre Staff, in particular, those who had contributed to the development of innovative research equipment and processes which were successfully deployed in NURC (SACLANTCEN) programmes, are invited to present their contributions.

Presentations of twenty minutes each are expected to describe salient moments and/or breakthroughs at NURC, and the impact of these in meeting the present and even future engineering challenges.

NURC POC

Lillian Gassie
NURC
Email: gassie@nurc.nato.int

November 2008:	Web site open for abstract submission
January 11th, 2009:	Deadline for submission of abstracts
February 2009:	Notification
March 26th, 2009:	Deadline for full paper
March 2009:	Technical Program will be published

Exhibition Options

Firms and Suppliers who have contributed (and are still contributing) to the development of NURC equipment and facilities are invited as exhibitors or/and speakers.

Option 1: Exhibit space only

Standard size is 9 square meters. A limited number of 6 square meter booths are available. The exhibition fee will include:

Exhibit space

Exhibitor list on www.OCEANS09IEEEBremen.org

Entry in the official exhibitor catalogue

Exhibitor passes

100 exhibition invitations for your guests
